“Striving for Excellence in Customer Satisfaction”

Slightly High Maintenance is proud to bring the big city products to a friendly small town salon. With plenty of hair stylists, nail technicians and Make-up Artist's ready to serve you, the salon is conveniently located in the Starbucks Parking lot on Stockton Hill Road. The salon has a very relaxing facial and waxing room with a full time aesthetician.

Slightly High Maintenance got its start from the creativity of its owner, Stephanie Wilkerson. She is a very caring person with a bubbly personality and a thriving ambition for having fun with life. Stephanie strives for the excellent customer service found only in the best establishments, and she pushes those values on all of her stylists. She is married to her High School Sweetheart for almost 14 years and they are enjoying raising their three children in the historical town of Kingman. They spend a lot of their time participating in activities within the community and are proud to help people and organizations in need.

You will always be greeted with a smile as soon as you walk in the door to the salon and offered a complimentary beverage while you wait for a service. The salon has five stylists with a combined 28 years of experience that will give you just the style you are looking for. There are five full time nail technicians ready to serve you for any nail needs. Our aesthetician Kim, has five years experience and will give you a very relaxing and wonderful facial in our beautiful facial room. The pedicure chairs the salon uses are second to none. They are like big plush couches with Jacuzzi jets and an antibacterial stainless steel system so you know your feet will be pampered the right way. We offer many different and fun packages like a “**Ben & Jerry's**” Ice Cream Pedicure and a “**Starbucks**” Espresso Pedicure.

The highlight of Stephanie's career is her passion for her make-up line, **Bare Minerals**. **Bare Minerals** sets the standard for, and is the leader in the mineral make-up industry. The salon is well stocked with the entire Bare Minerals make-up line including the Starter Kit as many of you have seen advertised on TV. Everyone that works at **Slightly High Maintenance** including the receptionists have been trained by **Bare Minerals** to meet their high standards of make-up application. Stephanie has been to many **Bare Minerals** training classes including her latest which was held at the Beverly Hills Hotel and was taught by the company's CEO Leslie Blodgett. “We will color match you and help you pick out that perfect shade that will not only bring out your beauty on the outside, but on the inside as well” says Stephanie. If you are looking for a fun, friendly, and relaxing place to get pampered then Slightly High Maintenance is the salon you will want to go to and send your friends and family as well !!
